

tangible BENEFITS

MANUFACTURERS' SCHOLARSHIPS

MCMA presents scholarships to county students and employees of member companies for technical studies and technical training at several accredited community colleges and skills training institutions.

MEETINGS AND EVENTS

MCMA provides a forum for members to gather and network, discuss pertinent issues and hear speakers address a wide range of topics.

COMMUNICATIONS

MCMA will provide updates on issues facing the manufacturing community. Communications will cover everything from legislation to labor issues.

TRAINING

MCMA organizes and hosts numerous training courses on issues that pertain to business and industry. These courses are free to MCMA members. MCMA coordinates with AIDT to present leadership skills training to Marshall County companies.

Workforce Development

MCMA partners with Snead State Community College, Marshall Technical School and all city/county school systems to pursue and support various workforce development initiatives.

Mission Statement

The Association operates as a non-profit corporation dedicated to supporting and enhancing the success of Marshall County industry by representing and promoting their views and interests, providing educational and developmental opportunities and by partnering with educational and training entities to encourage and support workforce development.

As with every manufacturer, members can take advantage of these great services offered through the MCEDC and various state and federal resources.
